PROFILE

Frontend developer at Mona AI with a cybersecurity background, focused on building accessible, performant interfaces in React and Angular. Comfortable across the stack with Java, Python and Google Cloud, and security-conscious by training.

PROFESSIONAL EXPERIENCE

Frontend Developer

2024 - Present

Mona AI · Saarbrücken, DE

- Develop and maintain the product's React and Angular frontend, owning component architecture and UI quality.
- Integrate frontends with backend REST APIs and Firestore on Google Cloud Platform.
- Apply secure-by-design practices from a cybersecurity background to frontend and data handling.

Working Student - Software Development

2022 - 2024

Mona AI · Saarbrücken, DE

- Contributed to frontend features in React/Angular alongside full-time studies.
- Built internal tooling in Python and Java and supported GCP/Firestore data workflows.

EDUCATION

B.Sc. Cybersecurity

Saarland University · 2020 - 2024
