PROFILE

Go-to-market engineer sitting between product, sales and marketing. Builds demos, technical content and tooling that accelerate the sales motion, and brings an engineer's rigor to positioning, onboarding and the developer experience of an AI product.

PROFESSIONAL EXPERIENCE

Go-to-Market Engineer

2024 - Present

Mona AI · Berlin, DE

- Build interactive demos, sample apps and proofs-of-concept that power the sales motion.
- Own technical enablement — documentation, demo environments and competitive teardowns.
- Instrument the funnel and automate GTM workflows with TypeScript, Python and no-code tools.
- Partner with sales and marketing to translate product capabilities into clear customer value.

Sales Engineer

2021 - 2024

Quantyl · Berlin, DE

- Ran technical demos and POCs for a developer-tools platform across the sales cycle.
- Built demo infrastructure and onboarding guides that shortened time-to-first-value.

Software Engineer

2019 - 2021

Codeon · Hamburg, DE

- Developed full-stack features in TypeScript and Python for a SaaS product.

EDUCATION

B.Sc. Computer Science

TU Berlin · 2015 - 2019
