SKILLS

Python TypeScript
JavaScript REST APIs
Angular React
Machine Learning
UI/UX Design
Data Visualization

LANGUAGES

Chinese Native
English Fluent
German Professional

CERTIFICATIONS

- DeepLearning.AI – Machine Learning Specialization

PROFILE

AI engineer bridging machine learning and product, with a master's in Data Science & AI. Builds end-to-end features — from Python ML services and REST APIs to polished Angular and React interfaces with a strong eye for UI/UX.

PROFESSIONAL EXPERIENCE

AI Engineer

Feb 2026 – Present

Mona AI · Saarbrücken, DE

- Build AI-powered product features end-to-end, from Python model services to Angular/React UI.
- Design and ship REST APIs connecting ML pipelines to the frontend.
- Own UI/UX for AI features, turning model capabilities into intuitive user workflows.

Working Student – AI & Development

2024 – 2026

Mona AI · Saarbrücken, DE

- Prototyped ML features in Python and integrated them into the product via REST APIs.
- Implemented frontend components in Angular and React with a focus on usability.

EDUCATION

M.Sc. Data Science & Artificial Intelligence

Saarland University · 2023 – 2026

B.Eng. Computer Science

Tongji University, China · 2019 – 2023
