- AWS Certified Developer – Associate

PROFILE

Forward deployed engineer focused on getting customers to value fast. Comfortable owning a deployment end to end — from discovery workshops to production rollout — and skilled at building the glue code, dashboards and integrations that make AI useful in the real world.

PROFESSIONAL EXPERIENCE

Forward Deployed Engineer

2023 – Present

Mona AI · Munich, DE

- Lead customer deployments of Mona AI from discovery through production rollout.
- Build bespoke integrations, internal dashboards and automation in Python and TypeScript.
- Act as the technical point of contact for accounts, resolving issues and shaping the roadmap.
- Created deployment templates that cut typical customer onboarding time significantly.

Implementation Engineer

2020 – 2023

Orbital Health · Lisbon, PT

- Implemented a healthcare SaaS platform across hospital customers, owning integration and training.
- Built HL7/FHIR data connectors and customer-specific reporting.

Full-Stack Developer

2018 – 2020

Nimbus Labs · Lisbon, PT

- Developed web applications in React and Node.js for early-stage products.

EDUCATION

M.Sc. Software Engineering

Instituto Superior Técnico, Lisbon · 2016 – 2018

B.Sc. Informatics Engineering

University of Porto · 2013 – 2016
